### Summary:

The Spy Master has been sent to eliminate the Clone Terrorists, who belong to an international terrorist organisation. These clones pose a dangerous threat because they are clones of two dangerous hitwomen, and will be ready to unleash havoc in London. The Spy Master is one of MI6's finest agents and is ready to complete the mission and infiltrate their base.

### Scene:

Infiltration of enemy base (can be filmed anywhere that has a corridor and a room)

### Script:

It opens with the two clone terrorists standing both armed with their silenced guns.

### Clone Terrorist 2:

"You stay here and guard the entrance, I'm going to take a look at the intel we just got off of the leader."

*Clone Terrorist 2 leaves and walks out of the frame leaving Clone Terrorist 1 alone.*

A tense scene begins, as the Spy master armed with a knife is ready to take down the unsuspecting Clone Terrorist 1. The Clone Terrorist 1 stands guard observing her surroundings, without noticing the stealthy Spy Master. The Spy Master's hands slowly reach around Clone Terrorist 1. Then the Spy Master Strikes. She plunges her knife into Clone Terrorists 1's neck, her eyes roll back and her tongue sticks out as the Spy Master holds the knife in place. The Clone Terrorist 1 slowly stumbles to the ground, and when the SpyMaster pulls out the knife, CT1 then slumps on the floor. The CT1 convulses for a few seconds, then dies. The Spy Master now takes the CT1 silenced gun, and searches for a key card, and finds one. She then moves towards the room where the other clone terrorist is.

Spy master opens the door, and CT2 turns around.

**Clone Terrorist 2:**

"Hey! What are you doing he-"

The Spy Master delivers a stab to CT2 covering her mouth, muffling the CT2 from raising an alarm. The Spy Master views the laptop screen that proves there's multiple clones at the base.

**Spy Master:**

"HQ, I have intel on multiple terrorists, I am moving out to eliminate them "

*The spy master then goes down a corridor.*

Nikki is patrolling down with her hands behind her back, she's walking down, then Lucy sneaks up behind her. She is completely unsuspecting as Lucy stabs her in the neck, then as Nikki goes on to her knees with her tongue rolled out in pain, Lucy necksnaps Nikki dead. She slumps to the floor face down.

Chelsea is stood guard by a door, she is with her hands behind her back, Lucy peaks around the corner (show pan view of her in her uniform) then Lucy pokes out quickly. Chelsea reacts but not quick enough, she is headshotted right between her eyes leaving her eyes crossed as she slides against the door onto the ground. As she is shot she lets out a moan.

Lucy then continues down the corridor, (Spy Master POV camera angle,). She sees Maria who is unaware of her presence. She then sneaks up on Maria from behind then stabbing her through her chin watching her struggle in pain as her tongue rolls out, her eyes roll back, and she lets out moans as she begins to slowly slump to the ground

*The spy master then continues down the corridor, where the three clone terrorists are. This time though, the three terrorists turn around and see her.*

**Clone Terrorist 1:**

"Oh shit!"

*The Clone Terrorists pull out their weapons*

CT1 pulls out and fires her gun, but misses, allowing the Spy Master to deliver decisive shots on the three Clone Terrorists. She moves on. The alarm is now raised after the gunshots were heard. The other clone terrorists begin a shootout with the Spy Master, as clone after clone is shot down and killed. Lots of precise effective shots delivered by the spy master which leads to a lot of the clone terrorists dying. (about 6-10 different clones being eliminated). Then, the real life terrorists appear trying to stop the spy master. After a gruelling gun fight, the spy master shoots both of them, leaving the terrorist organisation thwarted. She phones into HQ.

More details on this Scene:

Maybe have constant clones coming towards the spy master, giving a Spy Master POV as the enemies come running towards Lucy. Maybe have 6-8 enemies shot dead (like your scene in Game Over where multiple zako clones charge the hero and die over and over)

“HQ, it’s affirmative, all hostiles are down”

**END OF SCRIPT**
