F_Hips_2021_01_N.wtex

From the texture pack

The seam looks really bad in the captain, but on the trill...

Seam is perfect, not spots, because the full length skant top. Spots are there in the TOS mirror

(only 2 tops working)

No tight jackets work. Closest is 23rd medica

Club wear

Off duty bare chest khan top works

with files from

the female pack

Again, using the TNG skant for reference

Trill Boff

Andorian boff (bolians have same mismatch)

Rom

Orions look great just a very slight mismatch in skin tone

Klingons. The spine detail stops at the seam. If an artist were to taper it it would look better

Going through the thread again I spotted post 3106, a newer geometry bin. Replaced first one

No noticeable change

Replaced the F_Hips_2021_01_D and F_Hips_2021_01_N files with the texture pack versions

No appreciable change to the Klingon

Replaced F_Hips_2021_01_D with the hairy3.wtex
